

# THERMOSTATS

## Overview Thermostats

- Wide product range and many options
- Manual and automatic reset function
- International approvals available
- Temperature range within 0-250°C

### General technical data:

Normal load voltage:	125-250VAC
Load currents:	Up to 16A
Reset function:	Auto reset or manual reset
Contact function:	N.O. or N.C.
Housing material:	Aluminium, Stainless steel, brass
Connections:	4.8mm eller 6.3mm flatstift i olika vinklar och material
Mechanical life:	Resistive load 100000 cycles
Temperature range:	Between 0-250°C
Tolerance:	Selectable from: +/-1.5, 2, 3, 5 or 10%
Isolation:	1800VAC in 1min
